UI & Design: TailwindCSS, Bootstrap, Angular Material, Framer.js, Figma, Sketch

Database & APIs: PostgreSQL, MySQL, MongoDB, Rest APIs, GraphQL

DevOps & Tools: AWS, Google Cloud Platform, Git, GitLab CI/CD, GitHub Actions, Docker, Postman, Jira, VSCode, JWT, OAuth, RabbitMQ

WORK EXPERIENCE

An Abstract Level LLC

Madison, WI

Full-Stack Developer | *Angular, React, Node.js, GoLang, Ionic, RabbitMQ, AWS*

Feb 2019 - PRESENT

I've tackled a wide range of web application projects, utilizing my full-stack development skills to design, develop, and implement secure, scalable, and user-friendly solutions for a variety of clients.

EffortlessAPI | *TypeScript, Node.js, Angular, AWS, REST APIs, JWT, Docker, Postman, Nebular, Angular Material*

- Developed a user-friendly interface for CRUD operations, role-based access control, and integration with external data sources, to simplify API creation for users with diverse technical backgrounds
- Created Angular-based seeds with modular components, dependency injection, and dynamic routing, significantly enhancing app structure and maintainability
- Implemented responsive design, state management, and lazy loading, leading to a 40% improvement in app functionality and cross-platform compatibility

TeleMeetUp | *Angular, Ionic, GoLang, AWS, Google Cloud Platform, REST APIs, RabbitMQ*

- Led front-end development, crafting an intuitive interface for HD video conferencing and real-time collaboration
- Integrated AWS for scalable hosting and implemented RabbitMQ for asynchronous message queueing
- Implemented a feature-based pricing system, allowing clients to tailor their instance and automate billing based on chosen functionalities

Mimcrea Web Software

Esenler, Istanbul

Software Developer Intern | *Python, Django, WebSocket, MySQL, Git*

Feb 2017 - Jun 2017 (5 mos)

- Developed collaborative exam prep features for CevApp using Python and Django, implementing real-time Q&A for student knowledge sharing.
- Optimized database queries and implemented caching strategies within Django ORM to significantly reduce latency and enhance real-time Q&A performance.

Go Teknoloji, Noktahost.com

Çekmeköy, Istanbul

Software Developer Intern | *Javascript, jQuery, HTML5, CSS3, Linux*

Jun 2016 - Sep 2016 (4 mos)

- Developed a control panel for managing web hosting accounts (view usage, modify settings), optimizing the responsive design for a better user experience.

EDUCATION

Istanbul Nişantaşı University

Sep 2013 - Jun 2017

B.S. in Computer Science

Istanbul, Turkey
